# ACKNOWLEDGEMENT

- It is pleasure to express my sincere thanks and gratitude to:

## **Dr. Marwa Wahsh**

For her constant support and always being there to help me, she has been an older sister throughout this process. Not only could I rely on her during the time of my project, but she is always available to lend a hand whenever needed. She was a meticulous supervisor, but at the same time kind hearted. Her comments and guidance meant a lot to me and helped in the outcome of my thesis.

- I would like to express my deepest thanks and sincere gratitude to:

## **Dr. Nadia Fahmy**

I am deeply indebted to Dr. Nadia; she is the cornerstone of my success. Dr. Nadia is one of the main reasons I am standing here today, because she believed in me when I doubted myself. She saw in me what I didn't see in myself. I am grateful for her invaluable advice, continuous support, and patience during my PhD study. Her immense knowledge and plentiful experience have encouraged me in all the time of my academic research and daily life.

- I would like to extend my sincere appreciation to:

## **Dr. Maged Zohdy**

For his assistance, in the initiation, progress and completion of this study. For you believing in my work and always encouraging me to perform at my best, and I hope to live up to your expectations and exceed.

### **Dr. Ahmed Aboelfadl**

Who is like an older brother to me. He constantly encouraged me and would stay up late to help me. His advice was very helpful in finishing my project. I benefited a lot from his constructive criticism. I am thankful for all the guidance he provided throughout the process.

➤ It is pleasure to express my sincere thanks and gratitude to:

### **Dr. Tarek Salah**

I am honoured to be standing here today Infront of a leader respected by all. You constantly motivated me, but also challenged me to be better at problem solving and to develop my critical thinking. Teamwork was another great thing I learned from you and I apply all I have learned successfully in any team setting.

### **Dr. Atef Shaker**

I am honoured to be standing here today and to be defending my thesis in your presence. From when I was in school you have been my role model, and I wished to one day be given the opportunity to work beside you. Throughout the time of working with you I learned a lot and it helped in forming the clinician I am today and for that I am so grateful. You have been like an older brother to me and have guided me both in my academic career and personal life.

➤ I would like also to extend my sincere gratitude to:

All the staff members of fixed prosthodontic department Ain Shams University for all the love and appreciation they showed me during my time studying there. I never felt like I was an outsider, but rather as one of the staff

members, and I thank them for making me feel this way. I am honoured to have completed my post graduate work at this prestigious school and consider this place to be my second home.

➤ I am grateful to my second family in fixed prosthodontic department MSA University, for their continuous help and support, especially my dear **Dr Ahmed Hamdy** for his continuous support and motivation.

➤ Special thanks to my brother Ahmed Wagdi and my sister Aya Ghonim for all of your help and support whenever needed. Thank you for being there for me in my hard times.

➤ Special thanks to my younger brother Ahmad Tarek for being my assistant colleague throughout the time of the project, your help and support are greatly appreciated.

➤ Special thanks to my younger brother Mahmoud Salmoon for all your help finding the patients I needed to complete the studies I wouldn't have been able to do this without you.

➤ I would like to thank all my assistants for their efforts, help and motivation.

## *Dedication*

*My deep and sincere gratitude to my family for their continuous and unparalleled love, help and support. Thank you to my father and mother for all of their time and energy spent raising me up to be the person I am today. I learned from you to be a hard worker and to focus on being a successful individual. The respect I have for everyone around me and the respect I receive back I owe to my parents.*

*Special thanks to my sisters Lubna, Lamis and my old brother Medo for all the late nights you hosted me and allowed me the opportunity to work on my thesis.*

*Last but not least I wish to thank my wife, Marwa, for her enduring love, for believing in me long after I'd lost belief in myself, and for sharing my wish to reach the goal of completing my Ph.D. She has stood by me through all the hard times and gave me support and help. She also supported the family during much of my graduate studies. Truly blessed and thankful for all the nights you spent with me helping me in all the fine details. I am here today because of you and it wouldn't be done without you*

*Thank you to my lovely children Malak and Yousef for motivating me to accomplish all this for you, even though there were times you didn't make it easy on me to focus! I love you both so much!*
